

IN THE SPECIFICATION:

Please amend the paragraph at page 12, lines 27-30 as follows.

Component f) is used for the production of the elastomers according to the invention in amounts such that the maximum ratio of ~~the number of amino groups contained in catalyst component e)~~ to the number of ester groups contained in component f) to the number of amino groups contained in component e) is 1.0. A ratio from 0.5 to 0.8 is preferably selected.
